# Program Funding Levels

## Summary Tables

Two tables are presented:

- *Table 1. Estimated Outlays/Credits for Domestic Assistance Programs, by Federal Department or Agency (FY 13, 14, 15, 16).*
- *Table 2. Summary of Estimated Outlays/Credits, by Federal Department or Agency (FY 13, 14, 15, 16).*

The tables are based on information in the *Catalog of Federal Domestic Assistance 2015*, and prior editions, and updated in July, 2016 based on information found on the *Catalog* website found at <https://www.cfda.gov>. The tables offer a general perspective of government funding for specific programs and agencies, in relation to one another and to other federal activities. Such a perspective can be useful in several ways to persons or organizations interested in certain programs and in government assistance, including:

- Having identified programs meeting given needs, prospective applicants can use the tables to compare relative funding levels.
- Tables 1 and 2 show funding levels for four federal fiscal years. To our knowledge tables compiled specifically for the domestic assistance programs exist nowhere else—i.e., apart from the costs of other administering agency functions. Perhaps such a compilation adds a new dimension to perspectives of federal domestic assistance.

### **Important Note on Unavailable Information**

In recent years, some departments or agencies have failed to provide updates to funding levels for certain programs and, in some cases, have failed to provide updates to funding levels for all programs administered by that department or agency. For instance, the DEPARTMENT OF VETERANS AFFAIRS has not updated funding levels for some of its largest programs, and the SOCIAL SECURITY ADMINISTRATION has not updated funding levels for any of its programs.
